About Me

I am passionate about **technology**, **mathematics** and **physics**. I am looking to find an internship position that focuses on the **Data Scientist** area with a focus on **Machine Learning and Artificial Intelligence**. I'm looking for this vacancy to acquire experience with **Python** and **Power BI** and use the concepts of **Mathematics and Statistics** in real projects in the job market.

Currently, studying **C++** in depth in order to make software for **IOT, Embedded Systems and Micro Controllers**.

Educação

ESTUDANTE DE ENGENHARIA ELÉTRICA

Universidade Federal
Fluminense (UFF)
2017 - atual.

Currently in the 5th period, I find it easy to learn subjects that use a lot of mathematics.

I had experience in having my first contact with Programming in the Fortran Language. In this course, the objective was to learn programming logic.
